My wife and I have been using Stryker hunting blinds for the last few years now and we love them!

There are so many different features we like about them. They are roomy enough for my wife and daughter to comfortably hunt in. The silent window technology lets you open the windows with no sound which is extremely convenient in the moments that matter most, and lastly they are sealed so well.

I actually killed my biggest whitetail buck to date out of a 6x6 with a trouble wind blowing right to him which scored 172 1/8. If you can be undetected by a big mature buck like that, that right there is proof that Stryker Hunting Blinds are the best!"
